Subject: Dev Repro Section revised by bg
Attachments: FA_DevRepro_111215.docx

Hi Andrew,

I went through the section and re-arranged it as we discussed. I hope it reads better. I also went through my comments in the animal section and these are the ones I am standing by. I also read through all of yours and I think they make sense and could be very helpful to Sue as she responds.

After you are happy with your comments etc, I think we should send it to her offering to meet if she wants. Given that you provided suggested text and with the comments, I don't think it will take too much time to finish it. I still need to fix the numbers in the lit search section.

-Barbara
